

Christopher Lorenzo

IT Service Desk Analyst II | Endpoint & Infrastructure Support

Hialeah, FL (US) / stayz3ro@gmail.com / linkedin.com/in/christopher-l-2118351ab/ / 3054650235

Professional summary

IT Service Desk Analyst II with experience supporting Windows, macOS, Microsoft 365, identity/access, VPN, MFA/SSO, endpoint troubleshooting, and technical documentation. Hands-on lab experience includes HA DNS, monitoring, Proxmox, Linux, Docker, secure remote access, managed networking, and service desk automation.

Employment history

IT Service Desk Analyst II, World Kinect

JAN 2026 – PRESENT, MIAMI, FL

- Provide Tier 2 support for Windows, macOS, Microsoft 365, VPN, Citrix, endpoint, application, and access-related issues.
- Administer identity and access support using Active Directory and Azure Entra ID, including MFA/SSO troubleshooting, permissions issues, and account validation.
- Troubleshoot escalated endpoint, network connectivity, application, and device issues while maintaining SLA awareness and clear documentation in Jira Service Management.

Specialist I, IT Service Desk Analyst, World Kinect

JUN 2025 – JAN 2026, MIAMI, FL

- Supported Windows, macOS, iOS, Microsoft 365, VPN, Citrix, and mobile device issues across global regions.
- Managed calls, chats, and Jira tickets with accurate documentation, SLA awareness, onboarding support, and access validation.

IT Service Desk Analyst, World Kinect

FEB 2025 – JUN 2025, MIAMI, FL

- Provided Tier 1 support for hardware, software, email, Microsoft 365, Active Directory, and end-user access issues during contract evaluation period.
- Logged, triaged, and escalated incidents while identifying recurring issue patterns and assisting with authentication, endpoint, and user access troubleshooting.

Help Desk Specialist, DASI LLC

MAY 2023 – JAN 2025, MIAMI, FL

- Provided Tier 1 support for hardware, software, email, user access, Microsoft 365, and endpoint troubleshooting.
- Managed ticket queues and restored user connectivity through DNS, SMTP, HTTPS, password reset, and remote support troubleshooting.
- Assisted senior technicians with basic FortiGate, network equipment, and workstation support tasks.

Technical Projects

- Designed and documented a self-hosted HA DNS and monitoring lab using Pi-hole, Keepalived, Gravity Sync, Unbound, Prometheus, Grafana, Tailscale, RustDesk, and Proxmox-hosted services.
- Migrated a flat home network onto managed infrastructure using a TP-Link ER605 router/firewall, Omada-managed switch, and Omada Controller while documenting subnetting, VLAN planning, firewall policy, and controlled renumbering.
- Building Linux VPS and PowerShell tooling projects focused on Docker Compose, reverse proxying, HTTPS, secure remote access, endpoint diagnostics, ticket-ready reporting, and future repair/remediation workflows.

Education

GED, Sheridan Technical College

MAY 2013, HOLLYWOOD, FL

Certifications

Google IT Support Professional Certificate, Google

FEB 2025 – MAR 2025

Skills

Microsoft 365 Administration,
Active Directory / Azure Entra ID,
Intune / Endpoint Manager,
